

## **Riding to Save Lives - One Mile at a Time (March 2011)**

On January 29th, Peacock Myers' Diane Nelson began training and fundraising with the Leukemia & Lymphoma Society's Team in Training that will culminate at Lake Tahoe on June 5th, when she joins other Team in Training participants from all across the country to cycle 100 miles in America's Most Beautiful Bike Ride. Team in Training is raising funds to help stop leukemia, lymphoma, Hodgkin lymphoma and myeloma from taking more lives. On June 5th, they will be riding in honor of those fighting these blood cancers, as well as other cancers, and in memory of those we have lost to cancer.

You can help Diane cross the finish line in Lake Tahoe on June 5th AND help Team in Training to cross the ultimate finish line, A CURE, by making a donation in support of her participation in Team in Training and to help advance the Leukemia and Lymphoma Society's mission. Please visit <http://pages.teamintraining.org/nm/ambbr11/dnelsonazf> to donate and to help in the battle for a cure.
