2011 Technology Ventures Equity Capital Symposium Call for Business Plans (December 2010)

Apply to present your company to investors and industry leaders

Application Deadline: Friday, January 7, 2011

Event Date: May 18-19, 2011

Technology Ventures Corporation is currently seeking business plans and executive summaries for U.S. technology companies interested in presenting to over 100 venture capitalists, investors, angels, and other members of the venture community.

The 2011 Technology Ventures Equity Capital Symposium is being held May 18-19, 2011, in Albuquerque, New Mexico. For eighteen years the symposium has served as a vehicle to connect growing or expanding technology companies with investment opportunities. Of the entrepreneurs who have worked with TVC, about one in three has received funding.

Preference will be given to those opportunities that are based on technology developed by or with one of the U.S. Department of Energy laboratories. Contact TVCECS@techventures.org or plans@techventures.org for more information.

Peacock Myers has been a sponsor and our attorneys have been TVC Advisors for many of the selected companies for 16 years. We are pleased to support TVC's efforts.
