AG Sprint for Innovations in Agriculture

Peacock Law would like to announce that New Mexico State University's Arrowhead Center's AG Sprint (AgSprint) is now accepting applications for its 5-month venture builder program for innovation in agriculture technologies. **The application deadline is April 4, 2019.**

Applicant ventures should fit into one of the following categories:

- Agriculture Biotechnology
- Bioenergy & Biomaterials
- Farm Management Software, Sensing & IoT
- Food Marketplace/E-commerce
- Innovative Food
- Novel Farming Systems
- Robotics, Mechanization & Equipment
- Supply Chain Technologies

Accepted ventures receive 5 months of customized support tailored to their unique path to business development and financial success. Resources for accepted ventures include idea screening, development, and testing, prototype development, market testing, pilot testing, fundraising (public), fundraising (private), manufacturing, digital marketing, and more. To apply, fill out the AgSprint online application found at www.f6s.com/newmexicoagsprint2019/apply. No other materials are required.
