**Marco Santamaria Receives U.S. Patent No. 11,324,810**

Congratulations to Marco Santamaria, one of our Registered Patent Attorneys with Peacock Law, who received a patent on his own invention, U.S. Patent No. 11,324,810, entitled *Method for Producing Peptide ACE Inhibitors*, issued on May 10, 2022! This patent is directed to a method to produce natural, low-cost small molecule ACE inhibitors from agricultural waste for the treatment of cardiovascular disease.

Marco specializes in patent prosecution in the chemical, biological, and mechanical arts. In addition to being registered before the U.S. Patent & Trademark Office, he is a licensed attorney in Arizona, Colorado, District of Columbia, New Mexico, Texas, and Washington. Marco graduated cum laude with his J.D. from the University of New Mexico School of Law and holds Bachelor's and Master's degrees in Bioengineering from the University of California, San Diego, where he also worked as a research scientist for the Department of Veteran's Affairs.

At Peacock Law, our Registered Patent Attorneys and Patent Agent use their personal knowledge of the patent process to better understand an inventor's perspective and objectives to achieve optimal outcomes in patent prosecution. We are extremely proud of Marco for obtaining this patent!
